TALENT SOURCING

Comprehensive research to accomplish ideal sourcing aims

Systematic sourcing was a common challenge in this domain. However, we have Anticipated these limitations and acquired a Unique way of getting deeper into this arena with our thorough research system.

Extensive Sourcing Networks

With a presence in various regions of the countries we source from, we have established broad networks for talent acquisition. This strategic insight has enabled us to create innovative sourcing methods.

Large Database

Our research department began searching remote / rural areas, gathering all the data on personnel, trade, and talent.

Updated Records

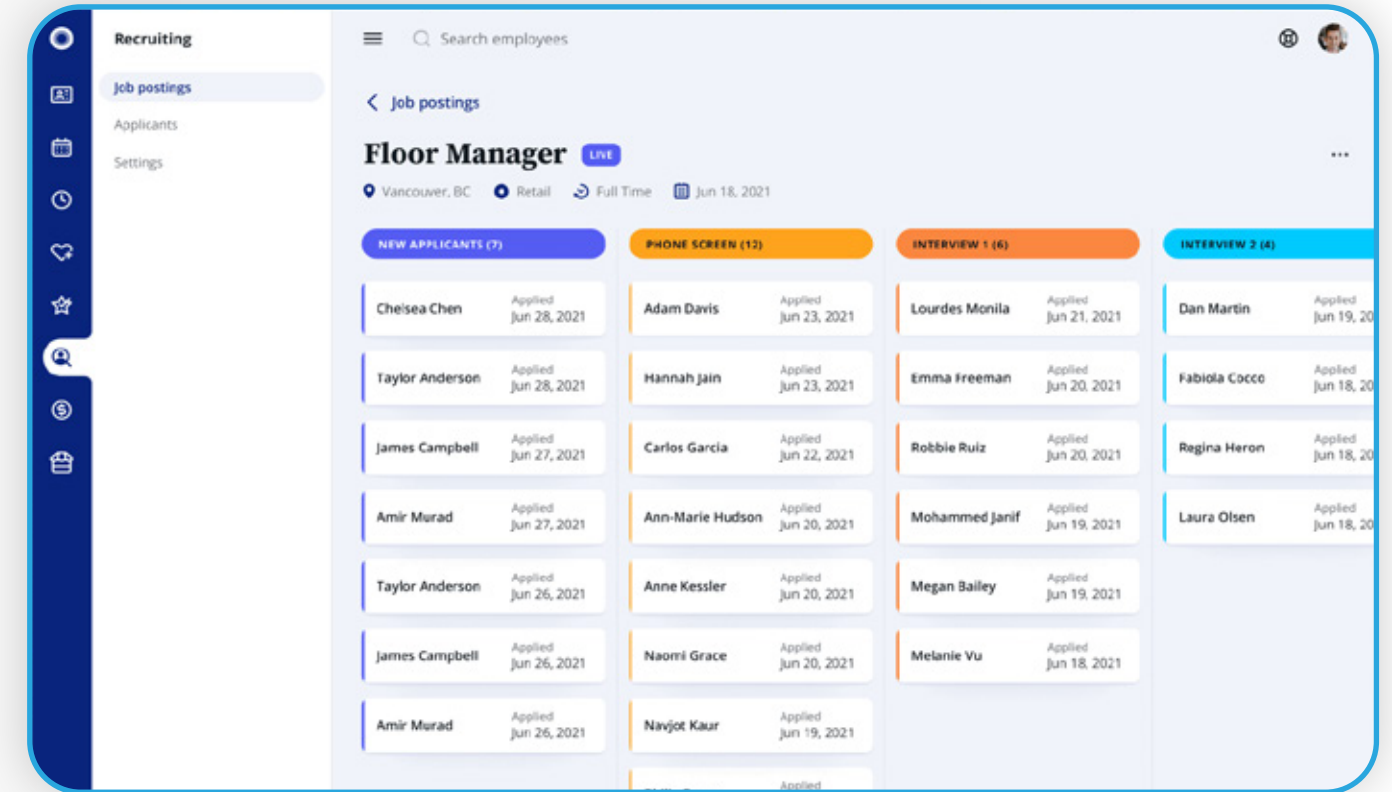

We have updated records of different income categories, trade, talents and conditions. This led to devising an essential sourcing tool, making acquiring the perfect personnel for the client's requirements easy.

Our Portal Applicant Tracking System (ATS)

We have up-to-date records of different income categories, trades, talents, and conditions. This led to devising an essential sourcing tool, making acquiring the perfect personnel for clients' requirements easy.

- Our Portal Applicant Tracking System (ATS) manages the candidate database, streamlining recruitment and ensuring efficient, organized tracking of applicants.

Our company's website accelerates hiring, and its ATS automates the recruitment process, from parsing resumes to tracking applicant progress. This empowers employers to submit their staffing requirements and job openings swiftly. Once a job opening is submitted, Qamr International utilizes an advanced Applicant Tracking System (ATS) to match these requirements with suitable candidates in a timely and accurate manner.

Furthermore, Qamr International provides employers with the shortlisted applicants' CVs on an ATS dashboard tailored to the job opening, expediting hiring the right candidate.

This ensures employers can quickly connect with qualified candidates, significantly reducing the time and effort needed to fill job openings.
